

Fibrelite Lightweight Composite Lids For Tier 15 Road Crossing Trenches

Manufactured from high performance polymers and engineered to outperform similar products made from concrete and fiberglass reinforced concrete materials, these lids are lightweight, yet tough enough to withstand traffic and harsh field conditions.

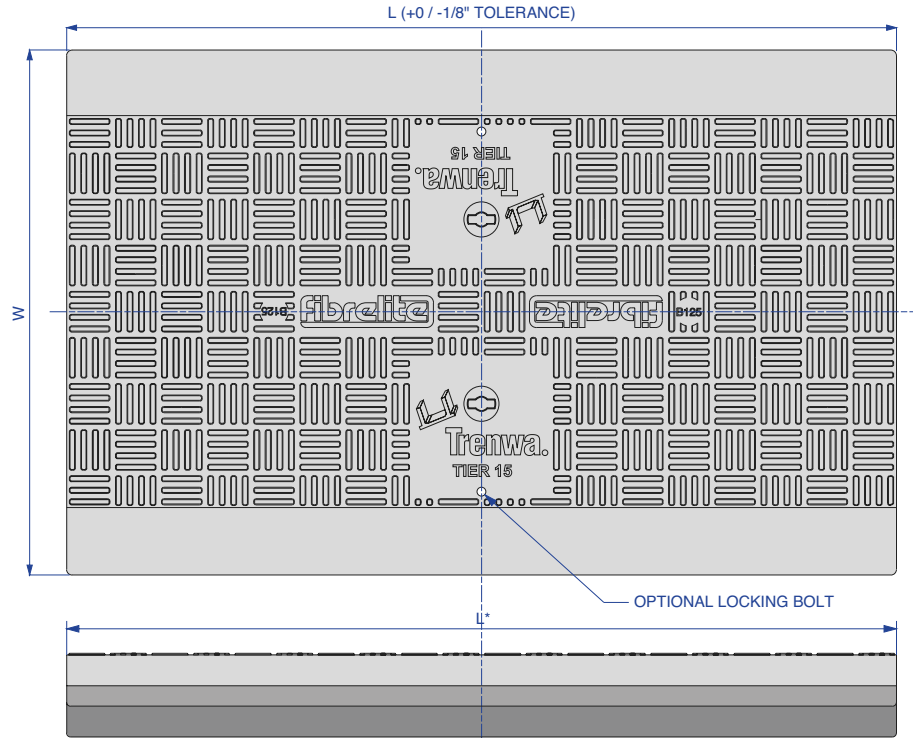

FIBRELITE 

Substations • Power Plants • Co-Gen Facilities • Wind Farms • Refineries • Universities
Data Centers • Industrial Plants • Telecommunication Sites • Waste Water Treatment Plants

Fibrelite Lightweight Composite Lids for Tier 15 Road Crossing Trenches

Engineering Specifications & Benefits

- Lightweight FRP composite construction
- Chip and crack resistant
- Safe, fast manual removal and replacement with the Fibrelite FL7 lifting handles
- Freeze / thaw cycle impervious
- Non-conductive
- Chemically inert
- Exceeds service requirements
- Anti-slip / anti-static surface
- Non-corrosive
- Custom colors available
- No scrap value
- Weather resistant
- Maintenance-free
- UV stable

COVER CODE	W = WIDTH (INCHES)	L* = LENGTH (INCHES)	WEIGHT (LBS)
LMF16-60	16	60	50
LMF26-60	26	60	72
LMF30-60	30	60	85
LMF36-60	36	60	105
LMF46-30	46	30	88
LMF46-40	46	40	105
LMF54-30	54	30	120
LMF54-40	54	40	135

*+0 /-1/8" Tolerance. Special lengths less than 1/2 a standard lid will not have lifting inserts.

Trenwa – Tough Enough to Trust

Family owned and operated since 1961 – precast concrete trench is our specialty. With four modern, strategically located plants, we are the country's leading producer of durable, precast trench systems in the broadest range of types and sizes.
